Branches to be cut back.</p> <p>Reason: Blocking considerable amount of sunlight across the footprint of the garden, it was advised to maintain the tree, some work would have to be carried out. Better for the health of the tree to be kept pruned as the wounds created at this stage will have more chance of healing, rather than leave too long before the girth of the branches will be greater and the wounds created larger.</p> <p>Location: 4 Bramley Close East Bridgford Nottinghamshire NG13 8QR</p>
